# ROADQUIP® PREMIUM BARRIER

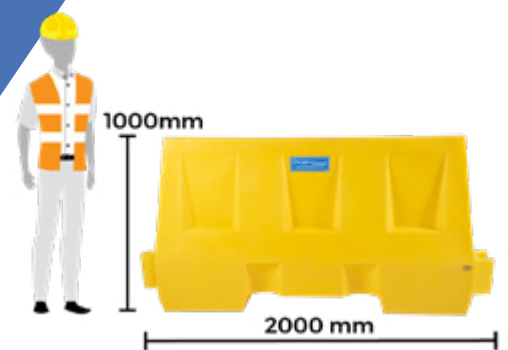

RoadQuip® Premium Barriers are designed to be highly visible and warn road users of the dangers on the road. Primarily used for road works but also used in construction and work zones, these barriers have found their way to being used for many other purposes. These include sporting and public events, road races, general cordoning off of areas, restricting access, and emergency barricading during floods. An excellent multi purpose barricade or barrier. RoadQuip® Premium barriers are lightweight and can be filled with water or sand for extra weight. The RoadQuip® barriers can be used to protect vulnerable areas like school yards and pedestrian walkways. Used to delineate or channelize traffic.

## FEATURES

- Fill with water or sand for ballast
- High visibility colours
- Light weight to carry and place
- Locally manufactured

## APPLICATIONS

- Channelise and delineate
- Construction zones
- Pedestrian safety
- Road user safety
- Restrict access
- Crowd control
- Work zones
- Barricade

WE SAVE LIVES

# | TRAFFIC BATTON

Traffic battons are an effective way to guide traffic at night time. The electronic flat has high visibility and can be used for traffic control, at construction sites, accident and road blocks.

## FEATURES

- High visibility
- Lightweight
- Electronic LED flag

## APPLICATIONS

- Parking attendants
- Construction sites
- Traffic control
- Road blocks
- Accidents

## TECHNICAL DETAILS

Battery operated  
Flashing or steady mode  
Red or red & green colour flashing

# | ROADQUIP® CABLE STAND

The RoadQuip® Cable Stand is a heavy duty plastic stand, carrying dragline cables. It clearly identifies the location of cable, both during the day and at night, thus preventing damage to the cable.

## USES

- Demarcate where cables run reducing damage by run-over.
- Carry multiple cables/water pipes
- Locally manufactured

## APPLICATIONS

- Construction sites
- Mines

## TECHNICAL DETAILS

600mm(h)

Optional:  
Branding, Warning Signs,  
Reflective Stickers

## ORDERING DETAILS

Cable Stand - SXS731

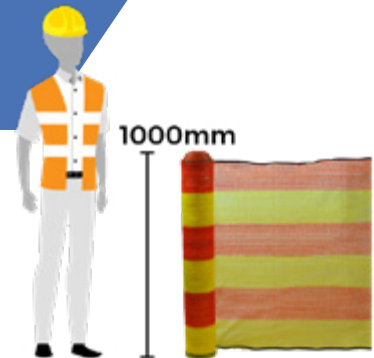

## BARRIER: KNITTED & PLASTIC

The XpressNet Barrier is ideal for demarcating and cordoning off dangerous areas. It can be used for the protection of construction sites, work zones or to keep unauthorised persons from entering an area. Its bright orange/yellow colour is sure to be noticed.

### FEATURES

- Durable
- Lightweight
- Highly visible
- Compact storage

### APPLICATIONS

- Construction sites
- Work zones

### TECHNICAL DETAILS

1m x 50m roll  
Plastic  
Knitted  
2.3kg

### ORDERING DETAILS

XpressNet Barrier Plastic - SXS006

XpressNet Barrier Knitted - SXS006LW

# | BUGGY WHIP FLAG

The 3 metre Buggy Whip Flag is a must have to display the location of your vehicle. The flag is available in a 1 or 2 piece set and consists of a flexible carbon fibre rod and a highly reflective flag.

## FEATURES

- Flexible
- Reflective
- Highly visible

## APPLICATIONS

- Construction vehicles

## TECHNICAL DETAILS

3m (h)  
Carbon fibre rod  
1 piece or 2 piece  
Optional: Bracket

## ORDERING DETAILS

Buggy Whip Flag 1 piece - SXS403  
Buggy Whip Flag 2 piece - SXS403A  
Buggy Whip Flag Bracket - SXS342

# | ROADQUIP® PARKING

## LOCK

The RoadQuip® Parking Lock is an effective way to dedicate parking bays for clients or tenants or to reserve disabled parking bays. The parking reserver is mounted one third into the parking space, with the reserver panel locked in an upright position to reserve a parking. The RoadQuip® Parking Lock is left in the down position for the time the car is parked in the bay and is raised and locked into position when the vehicle exists.

## FEATURES

- Lockable
- Folds flat
- UV Stabilized
- Locally manufactured

## APPLICATIONS

- Restrict parking bays:
  - Factories/warehouses
  - Shopping centres
  - Town houses
  - Estates
  - Offices

## TECHNICAL DETAILS

600mm(h) x 150mm(w)  
1000mm (h) x 150mm(w)  
4 kg
